SUMMARY of the FY 2016 Notice of Funding Availability (NOFA) for the HUD Continuum of Care (CoC) Program

BACKGROUND

The CoC Program (24 CFR part 578) is designed to promote a community-wide commitment to the goal of ending homelessness; to provide funding for efforts by nonprofit providers, States, and local governments to quickly re-house homeless individuals, families, persons fleeing domestic violence, and youth while minimizing the trauma and dislocation caused by homelessness; to promote access to and effective utilization of mainstream programs by homeless; and to optimize self-sufficiency among those experiencing homelessness.

Each year the U.S. Department of Housing and Urban Development (HUD) releases a Notice of Funding Availability (NOFA), signifying the beginning of a funding competition among approximately 450 Continuums of Care (CoCs), the community stakeholder groups that guide local responses to homelessness. The FY 2016 CoC NOFA was released on June 28, 2016, opening the competition and making available approximately $1.9 billion to serve people experiencing homelessness. The information in the NOFA sets forth the competition rules and processes for FY 2016. This summary includes the highlights of the NOFA.

Before the CoC’s Consolidated Application is submitted to HUD, the CoC is required to hold a CoC-level competition to determine which Project Applications will be included, along with their relative priority, as evidenced by the ranking. The results of the CoC-level competition determine the projects for which the CoC will seek funding. Additional details about anything in this summary can be found in the NOFA, available at: https://www.hudexchange.info/resource/4688/fy-2015-coc-program-nofa/

APPLICATION STRUCTURE

The CoC Consolidated Application is made up of three parts:

1) FY 2016 CoC Application: Includes information about the CoC planning body, governance structure, overall performance, and the strategic planning process. This part of the application is scored and will determine the order in which CoCs across the country are funded.

2) FY 2016 Project Applications: Applications from entities applying for CoC Program funds to operate certain types of housing and services projects.

3) FY 2016 CoC Priority Listing: Ranks projects in order of priority, based on the CoC-level competition results

July 8, 2016
As expected, the NOFA and scoring criteria are focused on HUD’s policy priorities, including making strong progress on ending chronic, veteran, youth, and family homelessness and implementing Housing First system-wide, across the CoC.

The CoC Application has been restructured to be more cohesive and useful to CoCs for managing projects, building relationships, and being strategic. It will rely heavily on HMIS and other data, using system level performance measures.

For FY 2016 the Permanent Housing Bonus is available and can be used for either (1) new permanent supportive housing (PSH) projects that will exclusively serve chronically homeless individuals and families, or (2) new rapid re-housing (RRH) projects that will serve individuals and families coming directly from the streets or emergency shelters and include persons fleeing domestic violence situations and other persons meeting the criteria of paragraph (4) of the definition of homeless.

As in past years, the funding that CoCs can apply for is divided into tiers, with projects prioritized in Tier 1 being more likely to be funded than projects of lower priority, based on the CoC-level competition scoring, that fall into Tier 2.

- Projects in Tier 2 will be selected and funded based on a score related to: the overall CoC score, the project’s ranked order, project type, and Housing First implementation. This change is intended to reduce incentives for CoC’s to “game the system” and instead, encourages CoCs to simply rank projects in priority order.

- CoCs are expected to critically evaluate projects and carefully determine the priority and ranking for all Project Applications.

- Tier 1 is equal to 93% of the CoC’s Annual Renewal Demand (ARD) – the amount of funds needed to renew all currently-funded projects. For the TX BoS CoC, that amount is approximately $4,477,000.

- Tier 2 will be equal to 7% of the ARD plus the amount available for the Permanent Housing Bonus (up to 5% of the CoC’s Final Pro Rata Need (PPRN) amount). For the TX BoS CoC, 7% of the ARD is approximately $313,000. The bonus amount available is approximately $1.8 million.
HUD’S HOMELESS POLICY AND PROGRAM PRIORITIES

CoCs and Project Applications will be evaluated based on the extent to which they further HUD’s policy priorities. Aligned with Opening Doors: The Federal Strategic Plan to Prevent and End Homelessness, the policy priorities set forth in the NOFA are:

1. Create a systemic response to homelessness
   - Measure system performance
   - Create an effective Coordinated Entry process
   - Promote participant choice
   - Plan as a system
   - Make the delivery of homeless assistance more open, inclusive, and transparent

2. Strategically allocate resources
   - Comprehensively review project quality, performance and cost effectiveness
   - Maximize the use of mainstream and other community-based resources
   - Review transitional housing projects
   - Integration

3. End chronic homelessness
   - Target persons with the highest needs and longest histories of homelessness for existing and new permanent supportive housing
   - Increase units
   - Improve outreach

4. End family homelessness

5. End youth homelessness

6. End veteran homelessness

7. Use a Housing First approach
   - Use data to quickly and stably house homeless persons
   - Engage landlords and property owners
   - Remove barriers to entry
   - Adopt client-centered service methods

HUD recognizes that there may be some instances where the Housing First approach is not appropriate for a particular permanent or transitional housing project. For example, this may include projects where residents are focused on obtaining support to recover from substance use disorders, and such projects may be alcohol and drug free to support their continued sobriety. However, in general, Housing First approaches are encouraged across all types of projects. For the FY 2016 competition, the TX BoS CoC requires that all projects applying for CoC Program funds will use a Housing First model.
Eligible Project Applicants will need to meet certain Threshold requirements:

1. Project Eligibility Threshold
2. Project Quality Threshold
3. Project Renewal Threshold
4. Certification of Consistency with the Consolidated Plan
5. Environmental Requirements
