# Sheltered PIT Count

- HUD defines sheltered homeless persons as adults, children, and unaccompanied children who, on the night of the count, are living in shelters for the homeless.
- Regardless of funding source, **all** providers of shelter, vouchers, or funds for shelters (including motel/hotel rooms), and/or transitional housing need to provide unduplicated information about the individuals and families on January 24<sup>th</sup>, 2019.
- For Emergency Shelters, you should conduct the surveys in the late afternoon/evening **when participants are checking into stay the night.**

# Sheltered PIT – Who do you count?

## You should count:

- Emergency Shelters:
  - Domestic violence shelters
  - Hotel, motel, or apartment vouchers paid for by a public or private agency because the individual or family is homeless
- Transitional Housing

## You should NOT count:

- Persons living doubled up in conventional housing;
- Formerly homeless persons living in Section 8 SRO, Shelter Plus Care, Supportive Housing Program permanent housing or other permanent housing units;
- Persons living in conventional housing and receiving temporary assistance (Rapid Rehousing or Homelessness Prevention) from a program funded by the Homelessness Prevention and Rapid Re-housing Program (HPRP);
- Children or youth, who because of their own or a parent's homelessness or abandonment now reside temporarily or for a short anticipated duration in hospitals, residential treatment facilities, emergency foster care, or detention facilities;
- Adults in mental health facilities, chemical dependency facilities, or criminal justice facilities.

- ES/ TH Facilities

# Unsheltered PIT Count

- A count of people who are homeless but not in a shelter or transitional housing program is referred to as an unsheltered count.
- The unsheltered count requires identification of homeless people that are living on the street, in abandoned buildings, in their vehicles, tents, shanties, parks, woods, transportation stations, or other places not meant for human habitation on January 24<sup>th</sup>.

# Unsheltered PIT – Survey Steps

There are **five** steps to completing an unsheltered PIT count survey. As an unsheltered volunteer you should:

1. Identify yourself, engage potential participants and explain the purpose of the count.
2. Deliver the script and the consent process. Obtain verbal consent to proceed.
3. Ask the screening questions. Determine if the individual is eligible.
4. If eligible, administer the survey questions, recording the participant's responses. If ineligible, thank them for their time and move on.
5. Thank the respondent for their participation. If possible, provide the participant with donated items.

# Unsheltered PIT – Sample Script

Hello, my name is \_\_\_\_\_, and I am helping \_\_\_\_\_conduct a short survey of our community. We would like to learn more about people experiencing homelessness, what kinds of problems they face, and to see what services are needed to address homelessness.

Your participation is strictly voluntary, and all of your responses are confidential. Your privacy will be protected and respected. If questions make you uncomfortable you do not have to answer them. Would you be willing to take a few minutes to answer some questions?

# Unsheltered PIT – Where to Count

- Street/sidewalk
- Vehicle (car, van, RV, truck)
- Park
- Abandoned building
- Bus, train station, airport
- Under bridge/overpass
- Woods/outdoor encampment

# Unsheltered PIT – Prep and Forms

- Download and register an account with the [Counting Us](#) App
- If possible, map out sections for volunteers

# Service Based Count

- This method focuses on conducting interviews with users of non-shelter services and locations frequented by people who are homeless.
- The major difference between a night of the count approach and a service-based approach is that it cannot be assumed that everyone encountered is homeless.
  - To determine homeless status, it is essential to ask detailed questions related to living situation
- **Data collection must not extend beyond 7 days after 1/24/19**

# Training

# Training Outline

- **The purpose of the count:** Why it is happening and the expected benefits for the community and for the respondents.
- **The population:** Who experiences homelessness and why. There is an opportunity to educate volunteers on the population and the causes of homelessness. This could include specific information on homelessness experienced by Indigenous people and youth.
- **The approach:** How to approach someone to participate in the survey. An explanation of the honoraria/incentives. How to ask the survey questions in a respectful manner.
- **The survey:** How to screen for homelessness. What each question is asking for. The importance of collecting reliable data.
- **Logistics and safety:** What materials will be provided to survey teams. What to wear and bring on the day of the count. Who to contact in the case of a problem or emergency.

# Counting Us Mobile App

# Team Command Center

# Addressing your concerns:

- Concerns about volunteers use of app:
  - The app is intuitive
  - Simtech provides support documentation
  - Need to have a plan when people sign up to download, register and practice the app
  - Volunteers can get comfortable if they have some time in advance
- Concerns about people who are homeless responding to the app:
  - Some participants may be reluctant to use an app but we have not heard this at all
  - App does not require a name or DOB or any identifying information – same as paper.
  - Technology is everywhere – going to an emergency room and accessing services
  - Paper can be a back up
- The app is better than paper for managing data quality

# Domestic Violence Survivors

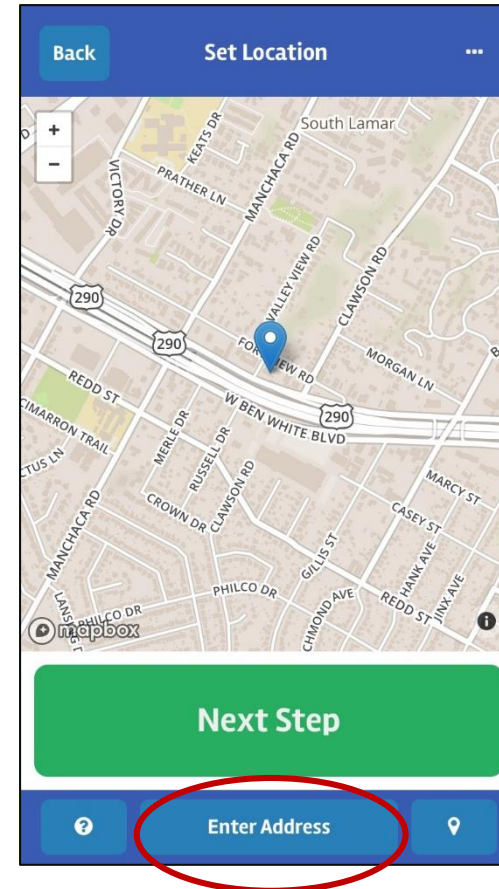

## Notice CPD 17-08:

- HUD is requiring that data reported on survivors of domestic violence should be limited to reporting on those who are **currently** experiencing homelessness because they are fleeing domestic violence, dating violence, sexual assault, or stalking, as opposed to reporting on survivors who have ever experienced these circumstances.

# **Housing Inventory Count (HIC)**

PIT + HIC = ❤️

# What it is...

- Each year, the U.S. Department of Housing and Urban Development (HUD) requires each Continuum of Care (CoC) to count its Housing Inventory Count (HIC) on the same night as the annually required Point-in-Time (PIT) count.
- HIC to be completed on **January 24, 2019.**

# What we Count...

- The HIC includes inventory and capacity information about all programs dedicated to serving homeless persons in a community, regardless of the source of funding. The HIC captures inventory information for the following program types:

## Shelter:

- Emergency Shelter
- Transitional Housing

## Permanent Housing:

- Rapid Re-Housing
  - Permanent Supportive Housing

# How we Collect...

- THN will send out a HIC Worksheet with Instructional Guide to each HIC Contact to be completed on January 24<sup>th</sup>
  - Excel document
- HIC Contact will fill out the **overall capacity** the project has to provide services to homeless (or formally homeless individuals)
- Email HIC worksheet back to THN by **February 1<sup>st</sup>, 2019**
  - To: Kristin@thn.org
