The Texas Balance of State HMIS Training Process consists of two major components: a series of videos and quizzes in our training site, Litmos, as well as a series of tasks to be completed in the training version of our HMIS. Both of these steps must be completed within 30 days. Failure to complete all training materials within the 30 day time frame will result in having to start the training over from the beginning.

The Training Coordinator can be contacted at hmis@thn.org
