DISASTER READINESS FOR HOMELESS SERVICES PROVIDERS

Disaster Coordination: Connect and Share Information

1 Find Local Connections

Local partners and communication channels can help us understand what is happening in a community.

Use the map to find:

- Local Homeless Coalitions
- Homelessness-system presence
- Councils of Governments
- Regional coordination contacts
- Other available local connections

THN uses the term Information Pathways for these relationships and communication channels.

2 Share Local Updates

Share what you are seeing locally with THN. Helpful updates can include:

- Housing instability or displacement
- Impacts to people experiencing homelessness
- Shelter, outreach, or program disruptions
- Increased requests for housing or other assistance
- Transportation or communication barriers
- Recovery concerns
- Emerging unmet needs

disastercoord@thn.org

This inbox supports information sharing and disaster coordination. It is not an emergency response or immediate-assistance line.

KEY TAKEAWAY

You do not need to have every answer. Sharing what you know can help improve understanding of local conditions.
